OFFICE OF THE SURGEON GENERAL
WITH THE GOVERNMENT OF BOMBAY.

Poona, 11th October 1924.

From

Major-General A. HOOTON, C.I.E., K.H.P., I.M.S.,
Surgeon General with the Government of Bombay;

To

THE SECRETARY TO GOVERNMENT,
General Department, Bombay.

Sir,

I have the honour to submit for the information of Government the following report on the Civil Hospitals and Dispensaries for the year 1923.

BUILDINGS.

2. The Hospitals have generally been kept in good repair.

3. The more important additions and improvements made at certain Hospitals during the year are shown below :—

(*a*) *The J. J. Hospital.*—The new Out-patient Department has been completed and taken into use during the year. This work had long been contemplated, and was much overdue. It may be regarded as the first step in the rebuilding and expansion of the J. J. Hospital, which is as urgently needed from the educational as from the purely medical standpoint. Until it is completed the clinical part of the training of the Grant Medical College students can never be satisfactorily carried on.

(*b*) Two new clinical laboratories were opened at the J. J. Hospital, Bombay, during the year.

(*c*) For some time past the overcrowding of the Grant Medical College and allied hospitals has given rise to serious uneasiness, and during the last two years the inadequacy of the clinical material available for the number of students concerned has attracted the attention of the General Medical Council of Great Britain. This body, having repeatedly brought the matter to notice, last year pointed out that if steps were not immediately taken to improve the conditions they would be unable to continue to recognise the medical degrees of the Bombay University. Apart from the serious effect this would have had on our graduates proceeding to England and elsewhere outside India it would have reacted most seriously on the reputation of the Bombay Medical College relative to other Indian institutions which might be recognised and it was felt that urgent measures should be taken to relieve the

congestion. The first measure was the utilisation of the Municipal Maternity Homes for practical midwifery teaching, and the next was to admit students to the Gokuldas Tejpal Hospital for medical and surgical work. This has involved a very extensive re-casting of the general arrangements of the hospital, together with the addition of common rooms for staff and students, and it is hoped that the result will be a marked expansion not only in size of the hospital but in the scope of work. A distinguished honorary staff has been appointed and Government has also sanctioned some paid appointments which are necessary for teaching purposes.

(*d*) *The Cama and Albless Hospitals.*—The new buildings consisting of a tubercle ward and a maternity annexe were completed and taken over during the year.

(*e*) *The Civil Hospital, Alibag.*—The bungalow for the Civil Surgeon has been completed.

(*f*) *The Civil Hospital, Ahmednagar.*—The new out-door and administrative block were completed and taken into use.

(*g*) *The Civil Hospital, Nasik.*—The new infectious block with accommodation for 8 beds was taken over during the year and new latrines have been constructed.

(*h*) *The West Hospital, Rajkot.* The work of rebuilding and extension of the out-door department has been completed during the year under report.

## Hospitals and Dispensaries.

### *Statement A.*

4. The total number of institutions open on 31st December 1923 was 785 as compared with 782 in 1922. Under the scheme for providing new dispensaries two dispensaries, *viz.*, Bhayender and Bhusawal, were opened during the year.

### *Statement B.*

5. The total number of patients treated during the year was 25,60,701 as compared with 25,49,200 in the previous year, an increase of 11,501 or 0·5 per cent. Of the total treated 73,042 were in-patients and 24,87,659 were out-patients, as compared with 69,831 in-patients and 24,79,369 out-patients treated in 1922. The attendance of in-patients shows an increase of 3,211 or 4·6 per cent. and that of out-patients 8,290 or 0·3 per cent. over the previous year.

6. Of the in-door patients treated during the year 44,917 were cured, 8,862 were relieved, 7,186 were discharged otherwise and 6,153 died. The ratio of deaths per cent. to the total treated was 8·4 as compared with 8·6 in the previous year.

7. The number of beds available was 6,596 against 6,717 and the daily average number of patients occupying them was 4,035·4 as

compared with 3,415·6 in the previous year. The reduction in the number of beds was mainly due to the rearrangements of beds at the Maratha and Arthur Road Hospitals, Bombay. The average daily attendance of out-patients was 27,275·2 against 24,764·9.

*Statement CI.*

8. The following comparative table shows the principal diseases among the in-door patients treated during the years 1922-1923 and mortality due to them :—

*Statements DI and DII.*

10. The attendance at Police, Canal, Forest and other state-special institutions was 56,487 as compared with 59,475 in 1922. At the

Railway Hospitals and Dispensaries the attendance rose from 2,63,660 in 1922 to 2,83,178 in 1923, an increase of 19,518.

*Statement E.*

11. The total number of in-door and out-door patients treated at private non-aided institutions was 16,44,597 as compared with 13,99,811 treated in 1922.

*Statement F.*

12. Of the total patients treated during the year 17,340 were Europeans and Anglo-Indians, 16,23,571 were Hindus, 7,89,821 were Mussalmans and 1,29,969 belonged to other classes. The total number of patients treated at female hospitals and dispensaries rose from 88,794 in 1922 to 1,02,101 in 1923. The number of women seeking medical relief at general hospitals and dispensaries practically remained the same as in the previous year, *i.e.*, 4,88,240 in 1923 against 4,85,419 in 1922.

*Statement G.*

13. During the year under report 1,01,731 surgical operations were performed against 96,536 in 1922, an increase of 5,195 or 5·4 per cent. They were performed on 1,01,331 persons with a mortality of 0·32 as compared with 95,925 persons and a mortality of 0·43 per cent. in 1922.

14. The removal of tumors and cysts gave 1,163 operations with 4 deaths against 1,356 with 10 deaths in 1922. Operations on bones were 2,261 with 16 deaths against 1,988 with 29 deaths in the previous year, amputations numbered 670 with 36 deaths as compared with 651 with 32 deaths in 1922. Cataract extractions were 1,980 in 1923 against 1,911 in 1922, vesical calculi were removed by litholapaxy and lithotrity in 886 cases with 10 deaths against 746 with 15 deaths in 1922. Lithotomy was resorted to in 129 cases with 13 deaths against 190 with 20 deaths in 1922.

15. Abdominal operations other than those for diseases peculiar to women numbered 1,408 with 104 deaths against 1,778 with 114 deaths in 1922 while those for diseases peculiar to women numbered 148 with 3 deaths as compared with 120 with 1 death in 1922. The total number of abdominal operations was 1,556 with 107 deaths against 1,896 with 115 deaths in 1922. The former number included 256 operations for the radical cure of hernia and 161 for abscess of the liver.

16. Obstetric operations numbered 1,101 with 28 deaths against 1,054 with 30 deaths in 1922, and operations for conditions peculiar to women other than obstetrics and abdominal numbered 804 with 14 deaths against 657 with 6 deaths in 1922.

*Statement H.*

17. The total income exclusive of the cash balance amounted to Rs. 49,94,052 as compared with Rs. 44,64,083 in 1922. Local funds

contributed Rs. 7,51,519 and Municipal funds Rs. 9,54,470. The interest on invested capital yielded Rs. 68,477. Subscriptions from Europeans and Indians amounted to Rs. 85,700. Miscellaneous receipts amounted to Rs. 6,88,453 of which Rs. 2,03,490 were realised on account of hospital fees and Rs. 2,20,491 were contributed by the several nursing associations.

18. The total expenditure amounted to Rs. 50,10,883 as compared with Rs. 44,00,762 in 1922. Deducting from this Rs. 2,52,714 remitted into the treasury, *viz.*, Rs. 1,75,058 on account of the hospital fees, Rs. 77,869 on account of sale proceeds of unserviceable articles, etc., and Rs. 1,80,370 invested during the year, the net cost for 1923 was Rs. 45,77,799. The average cost of each diet was Re. 0-6-5.

*Statement J.*

19. On the 1st January 1923 the invested capital stood at Rs. 13,00,565. During the year Rs. 1,80,370 were invested and securities worth Rs. 1,02,550 were sold leaving a balance of Rs. 13,78,385 at the end of the year.

HONORARY STAFF.

20. The practice of employing private medical practitioners on the teaching staff of the Poona and Ahmedabad medical schools continues to work well, and the honorary principle has been further extended during the year under report, by creating additional appointments at the J. J. Hospital both for in-door and out-door work.

NURSING ESTABLISHMENT.

21. The establishment of a Nursing Association at the Civil Hospital, Godhra, has been sanctioned during the year.

ANTI-RABIC TREATMENT.

22. Arrangements for anti-rabic treatment have been sanctioned at nine additional centres. This new development has been successful, and a great convenience to people who would otherwise have to travel long distances to Kasauli or Coonoor.

I have the honour to be,

Sir,

Your most obedient servant,

A. HOOTON,

Major-General, I.M.S.,

Surgeon General with the Government of Bombay.

CLASSES I AND II.—These include all institutions maintained by provincial funds and under Government management. The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions has not been regarded as a reason for not classing it as 'State' when provincial and imperial funds are practically responsible for all the charges connected with it. Class I—'Public' are State Dispensaries which are open to the poorer classes of the public. Class II are State Dispensaries which serve only a special section of the public as indicated in the sub-classification attached.

CLASS III.—Local fund dispensaries include all institutions which are vested in local boards or municipalities or guaranteed or maintained by local or municipal funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine, or otherwise, has not been regarded as a reason for not classing it as a local fund dispensary, when its existence is practically dependent upon local funds.

CLASS IV.—Comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

CLASS V.—Comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers has not been regarded as a reason for not treating it as a private non-aided dispensary.

CLASS VI.—Comprises all railway dispensaries whether maintained by State railways or others.
